The application deadline is April 24th, after which we will announce the list of the most creative and innovative travellers who will be travelling in early May 2023! Selected participants are expected to work on exciting projects, and as part of this unusual and different journey, on May 9th, 2023, a stop awaits us - the XIII International Exchange of Entrepreneurial Ideas -IDEALAND.

At the International Exchange of Entrepreneurial Ideas, participants will have the opportunity to present their idea to the representatives of "demand" - residents of the global village, and creators of the "History of their Future"!

After the Stock Exchange, we continue our journey along the established route and complete the synergy of creativity and courage!

If you are, or want to become someone who wants to express themselves in the right way, to remain original and unique, but also try their luck, and combine the pleasant and the useful - we are waiting for you!
